⚙️ SKILLS

Project Management
Click up,JIRA,SmartSheet,Wrike

Web Developing
React JS ,PHP, Express JS, HTML, CSS

Application Developing
Java, Python, Dart, Javascript, C

Version Control
Github

💼 PROJECTS

Recipe Finder Web App
A web application that allows users to search for recipes using keywords or ingredients via a public recipe API, with filtering and detailed recipe views.

English Quiz Web App
An interactive web-based quiz platform featuring multiple-choice questions to test and improve English language skills with real-time scoring.

POS System for Juice Bar
A custom-built Point of Sale system designed for a juice bar, enabling order processing, billing and inventory updates.

Library Management System
A static user interface designed with HTML and CSS to showcase screens for book lending, returns, member records, and overdue notifications.

Inventory Management System
A system to track product stock levels, supplier details, and restocking alerts, designed to streamline inventory control and reporting.

Bus Timer System
A web application that provides estimated bus arrival times, real-time tracking, and schedule management for daily commuters.
